Subject: Key EPA Contact Person on Wolverine

Hi Abby:

First, I have recommended to our HQ folks that we add a MDEQ contact to our upcoming drinking water result notification letter, as you suggested.

Second, please let me electronically introduce Heather Shoven of Water Division's Ground Water and Drinking Water Branch, who I have just asked to become your point of contact here at R5 for all things Wolverine. Heather has been one of our point people on Flint over the last few years, knows drinking water, and will now be responsible for: 1) facilitating EPA's internal Wolverine discussions; 2) taking point on our communications with MDEQ on technical issues, especially with respect to drinking water and PFAS issues, and; 3) coordinating with R5's Superfund Division.

I'm a little biased, but I think you will find Heather to be extremely effective and also easy to work with. Of course, Heather is just beginning to get up to speed, so it will take her a little while to get caught up. Still, I recommend you contact her at your earliest convenience so you two can start communicating. And of course, I will continue to provide whatever assistance to this communication process that I can.

Heather can be reached at (312) 886-0153 or at the above e-mail address.

Thanks!

Chris
